

## **Hudson Aesthetics MD Opens in Northern Westchester, Bringing a Medical Approach to Aesthetic Treatments**

**Cortlandt Manor, NY – April 2, 2025** – Hudson Aesthetics MD, a physician-led medical aesthetics practice, announces its official launch in Northern Westchester County, offering science-backed skin rejuvenation treatments in a clinical setting. Founded by Dr. Kerline Marcelin, MD, a board-certified ophthalmic surgeon, the practice aims to provide safe, effective, and medically supervised aesthetic treatments for patients seeking long-term skin health solutions.

Medical Director of Hudson Aesthetics MD,  
Ophthalmic Surgeon & Physician, Kerline Marcelin MD

### ***A Physician-Guided Approach to Aesthetic Medicine***

Dr. Marcelin, who has over 25 years of experience in surgical and medical care, brings a clinical approach to aesthetic medicine, ensuring that every treatment is guided by medical expertise and evidence-based protocols. The practice integrates advanced technology, including AI-driven facial analysis, to develop personalized treatment plans tailored to each patient's needs.

“We take a results-driven approach to skin health by focusing on long-term solutions rather than temporary fixes,” said Dr. Marcelin. “Our goal is to educate and guide our patients through their skincare journey, offering treatments that are medically sound and tailored to their individual concerns.”

Hudson Aesthetics MD distinguishes itself from traditional spas by operating as a spa clinic, where patients receive treatments performed or supervised by experienced medical professionals.

### ***Advanced Aesthetic Treatments Available***

Hudson Aesthetics MD offers a range of minimally invasive, non-surgical aesthetic treatments designed to promote skin rejuvenation and overall skin health. Available treatments include:

- Morpheus8 Radiofrequency Microneedling – Enhances collagen production and tightens skin.
- Moxi Non-Ablative Skin Laser – Improves pigmentation, texture, and overall skin tone.
- Venus Viva Skin Resurfacing – Treats fine lines, wrinkles, and skin irregularities.
- Platelet-Rich Plasma (PRP) Therapy – Uses the body's natural growth factors for skin and hair rejuvenation.
- Sculptra and Radiesse Collagen Biostimulants – Stimulates natural collagen production for gradual volume restoration.
- Dermal Fillers and Lip Enhancements – Hyaluronic acid-based fillers for subtle facial contouring.
- Botox and Neurotoxin Treatments – Reduces the appearance of dynamic wrinkles.
- Medical-Grade Skincare – Clinically formulated products for ongoing skin maintenance.

### ***A Commitment to Transparency and Patient-Centered Care***

Dr. Marcelin emphasizes a patient-first philosophy, prioritizing ethical practices and transparency in treatment recommendations. The practice provides thorough consultations, allowing patients to understand their options and make informed decisions about their care.

“We are committed to building trust with our patients,” Dr. Marcelin added. “If a treatment isn’t right for someone, we guide them toward alternative solutions, including referrals to specialists when necessary.”

### ***Recognized Expertise in Aesthetic and Medical Fields***

Dr. Marcelin is a nationally recognized physician with multiple accolades, including the Castle Connolly Top Doctor Award, Westchester Magazine’s Healthcare Heroes designation, and the Exceptional Women in Medicine Award. In addition to her work at Hudson Aesthetics MD, she serves as a Clinical Assistant Professor of Ophthalmology at the New York Eye & Ear Infirmary of Mount Sinai.

### ***Serving the Westchester and Hudson Valley Community***

Located in Cortlandt Manor, NY, Hudson Aesthetics MD welcomes patients from Westchester County, Putnam County, and the greater Hudson Valley region. The practice encourages individuals to take a proactive approach to skin health through medically supported aesthetic care.
